* If multiple processes or multiple line items are used, the minimum lot charges of each of the processes added together or each line item, respectively will apply. Minimum lot charge covers the first thirty minutes of work. Additional time will be billed using the hourly rates of processes involved.

Information that is necessary in processing parts include: Applicable Specification(s), alloy and temper or Condition of material, thickness of plating required, close tolerances, critical areas to be free of rack marks, masking requirements. Please provide drawing whenever possible. Several items may be mixed to meet a single minimum lot charge by meeting the following criteria: The items must be of the same material and of similar configuration. They must be plated using the same process requirements

* Environmental Fee of 8% will be added to each invoice.

* Credit Card Processing fee of 3% will be added to the invoice if the payments are made by credit card.
